## **DETAILED ACTION**

### ***Response to Amendment***

1. Applicant's amendment filed on April 18, 2006 has been entered. Claims 1, 5, and 15 have been amended. Claims 2 and 3 have been canceled. No claims have been added. Claims 1 and 4-20 are still pending in this application, with claims 1, 5 and 15 being independent.

### ***Claim Rejections - 35 USC § 112***

2. The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

3. Claims 1 and 4-20 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention. The limitations "converted by a processor of the telecommunication service before being completed" is not supported by specification. For examination purposes, these limitations are not considered.

***Claim Rejections - 35 USC § 102***

4. The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.
5. Claims 1 and 4-20 are rejected under 35 U.S.C. 102(b) as being anticipated by Lewis et al. (U.S. Patent No. 5,537,464).

Since the new limitations are not considered due to 35 U.S.C. 112, first paragraph issue, the limitations of the claims remain the same as previous version and hence, the claims are rejected for the same reasons as set forth in the rejection of previous Office Action.
